

# UK Construction and Building Materials Sector

UK Construction and Building Materials Sector  
by market capitalisation: total = £22.9 billion

UK Construction & Building Materials Sector  
by constituent: total number = 61

- Heavy building materials
- Light building materials
- Distribution
- Housebuilders
- Contractor/Housebuilders
- Contractors
- Other

The total value of the UK Construction and Building Materials sector at £22.9 billion is little more than Diageo plc, the drinks and food group

Only five companies (8% of the total) have a market capitalisation in excess of £1 billion but together they account for 37% of the sector's value

There are eight (13%) in the £500-999 million band – which is another 37% of the value

28 companies (46%) have a market capitalisation of less than £100 million and collectively this group represents just 5% of the sector's value

By activity, housebuilders dominate with 18 companies (30%) but only a commensurate share (32%) of the value

Second and third are Distribution and Heavyside Building Materials which are represented by eight (13%) and six (10%) companies, respectively, and 20% and 19% of the value. This underlines their relative valuation premium

There are 15 contractors which is one quarter of the sector by number but only 11% of the value

The UK has the most populous building sector of any stock exchange in the world

**Notes:**

(i) *Sector is the FTSE Actuaries Index for the Construction and Building Materials, priced at 31 December 2002.*

(ii) *excluded are 10 non-UK registered stocks which have a London listing and a total value of £14.4 billion. The first seven are Irish with the remainder from Australia, France and Japan: Abbey; Barlo; CRH; Grafton; Heiton; Kingspan; McInerny; CSR; Saint Gobain; and Kajima*
